HUMANITARIAN AMBASSADORS ORGANIZATION

INSIDE

2023-2024 REPORT

THE PRESIDENT – DR. MOHAMED KAMEL:

I would like to express my deepest gratitude to everyone who supported the Humanitarian Ambassadors Organization throughout this year. Thanks to the dedicated efforts of our team and fruitful partnerships, we were able to overcome significant challenges, including political and economic instability. The Dead Bodies Management and Environmental Sanitation Project is an example of how we successfully achieved tangible results even in the most difficult circumstances. As we look forward to the coming year, we remain hopeful and determined to achieve more milestones.

SECRETARY GENERAL - MR. ABDULLAH AL TAYEB

Dear friends,

If all we relied upon were the media or social platforms, it might be challenging to have hope for Sudan's future amid the horrors of war and destruction. Today, Sudan faces one of its worst humanitarian crises in history, with 25 million people urgently needing assistance. The devastating conflict has displaced 8.1 million people across the country, and approximately 1.8 million have sought refuge in neighboring nations, making Sudan the world's largest internal displacement crisis.

The year 2023 was exceptional for us at the Humanitarian Ambassadors Organization; it was our first year, facing unprecedented challenges. By the grace of Allah and through our team’s dedication, we succeeded in officially registered and have already begun to deliver aid to numerous distressed communities. We witnessed children and families who had lost everything under extreme hardship, but what stood out most was the glimmer of hope in their eyes despite the pain, inspiring us to continue our work.

Witnessing suffering firsthand leaves a deep impact, and we are inspired by people’s resilience to carry on despite the odds. With support of our partners and generous donors, we reached thousands, and we strive to expand our reach.

I extend my heartfelt gratitude to all who have believed in HAO mission and joined us in this humanitarian journey. Together, we can build a safer, more dignified future for the people of Sudan.

ABOUT **HAO**

Formation of the Humanitarian Ambassadors Team

A dedicated and diverse team of volunteers and experts, known as the Humanitarian Ambassadors, has been established. This team works tirelessly across various sectors, including healthcare, environmental protection, and humanitarian aid, to make a meaningful impact.

DEAD BODIES

MANAGEMENT AND ENVIRONMENTAL SANITATION PROJECT (PHASE ONE),

Project Implemented by : Humanitarian Ambassadors Organization (HAO)

Project location: Khartoum , PortSudan .

Project duration : 2 months (June – July 2024)

Fund : 10000 US$

Donor: Hamed Foundation – USA

Main Partners:

1. Federal Ministry of Health
2. Khartoum state ministry of Health
3. Humanitarian Aid & Voluntary Work Commission (HAC)

PROJECT OBJECTIVES

1. Promote the proper and dignified management of dead bodies and facilitate their identification.
2. Capacity building for ministry of health staff.

PROJECT IMPLEMENTATION

The BODIES MANAGEMENT AND ENVIRONMENTAL SANITATION PROJECT (1st Stage) _ SUDAN have been successfully implemented in targeted states in Sudan (PortSudan , Khartoum) by generously support from Hamed Foundation charity – USA.

The project have been implemented in two phases, phase one provision of project supply and phase two training and capacity building.

Provision of 200 dead bodies Khafan and 5 Kg related perfume (Hanoot) , 100 shoes and 400 dead bodies bags , all these project supply purchased from Saudia Arabia and China , transported to Sudan and handed to Federal Ministry of Health (FMOH).

PROJECT IMPLEMENTATION

Forensic medicine department conducted training workshop on dead bodies management for group of volunteer to support the gap of trained staff and to participate on dead bodies collection from safe areas following fighting between war two parties and to contribute in dead bodies identification and buried in graves in a timely and dignified manner and supervision of Forensic medicine trained staff.

The training covered the following technical areas:

- Allocation of a unique code to each body.
- Unique identifying method (whether fingerprints, DNA or dental examination) or other techniques.
- Taking photographs and recording data about each body as soon as possible.
- Placing each body in a body bag.
- Orderly temporary storage of the bodies.
- Creation of database for all reached dead bodies .

EID
AID DISTRIBUTION,

During Eid , HAO Distributed Aid to bring happiness to underprivileged families. In partnership with the Sudanese Red Crescent and the Experts and Academics Association, HAO distributed essential aid in Sennar city, supporting local communities with much-needed supplies and ensuring a joyful holiday for all.

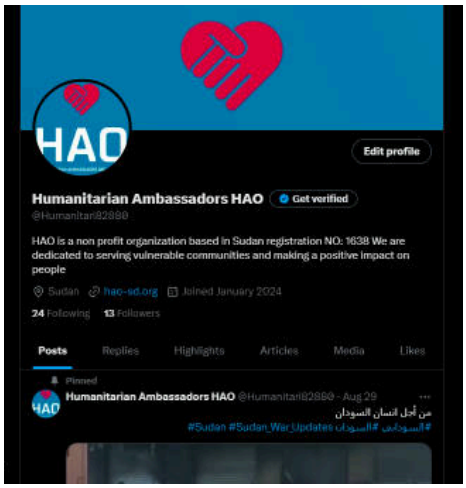
This combination of digital outreach and on-the-ground support highlights our commitment to humanitarian values and engagement with diverse communities.

VISITS
& NETWORKING,

Throughout this year, numerous visits were conducted to donors and international partners, fostering collaborative efforts. Notably, a fruitful partnership was established with the Hamed Foundation, which provided financial support for our Dead Body Management and Environmental Sanitation Project. This support allowed us to address critical humanitarian needs in challenging environments.

Additionally, we extended our efforts to Canada, exploring potential cooperation with various organizations and initiating partnerships. Other key networking initiatives included engagement with organizations in Saudi Arabia and the Ministry of Health, among others. These efforts underline our commitment to building a network that amplifies our impact in Sudan and beyond.

DIGITAL
ACHIEVEMENTS,



As part of our digital expansion, the Humanitarian Ambassadors Organization launched its official website to serve as a comprehensive platform showcasing our humanitarian activities and projects. Additionally, we established social media accounts to enhance engagement and support our initiatives. We now have active profiles on X (formerly Twitter), LinkedIn, and Facebook, which help us spread our message and expand our humanitarian impact.
